

Brightening and hardening resin

RT-3612

Product features and advantages:

RT-3612 brightening resin is a kind of high light resistance hard resin, with excellent weather resistance and chemical resistance and other resins have good compatibility, can give the paint film good fullness, high gloss, can increase the adhesion of the paint film, mechanical and fast drying, adding this product can significantly increase the gloss and hardness of the paint film.

Product parameter:

appearance	Light yellow transparent liquid
Nonvolatile fraction	70%
density	1.10 (g/cm ³ , 25C)
Refraction efficiency	1.4912

Product application: industrial paint, furniture paint, ink and other oil-based paint

Recommended dosage: 5-15% total amount

Usage: Add in paint mixing stage

Packing: 180KG/ barrel

Storage strip: Stored in a cool and dry place at 2-35°C, away from the sun and away from the fire
